CRS Electronics Wins \$500,000 of Prestigious \$1.1M Project

September 17, 2014, Toronto, ON – CRS Electronics Inc. (“**CRS**” or the “**Company**”), (TSX-V:LED), a developer and manufacturer of LED lighting products, is pleased to announce it has secured \$500,000 of a \$1.1M project. Retrofitting a prominent high rise building retrofit located in the Midwestern United States, CRS Electronics successfully partnered with Trans-Lux Energy Corporation to win a large and prestigious contract.

“We thank Trans-Lux Energy Corporation for involving us and look forward to a strong partnership beyond this initial project,” said Travis Jones, President & CEO of CRS Electronics.

“We chose CRS Electronics because of their leading edge products as well as their ability to solve problems,” said David Pavlik, President of Trans-Lux Energy Corporation. “We have many opportunities and plans where we can partner with CRS Electronics to create more wins.”

About CRS Electronics Inc.

CRS Electronics Inc. (TSX-V:LED), is a leader in the emerging, rapidly-growing market of high efficiency light-emitting-diode (“LED”), or, solid state lighting (“SSL”). The principal activities of CRS Electronics include the development, manufacture and sale, primarily in North America, of indoor lighting products such as LED replacement lamps, exterior LED warning lights for school buses, child safety systems for school buses, LED architectural lighting fixtures, and contract manufacturing of LED circuit boards. As an innovator of LED solutions since 1998, CRS Electronics continues to expand its product portfolio and market presence with business partners and customers, and under its own product brands, which include CRS Electronics and Lumenova™.
