CRS Electronics Announces \$525,000 Private Placement

September 25, 2009, Welland, ON – CRS Electronics Inc. (“CRS”), (TSX-V:LED), an engineer, designer, and manufacturer of LED lighting, today announced conditional acceptance to complete a private placement of common share and warrant Units to a maximum \$525,000.

The Units will be comprised of one Common Share and one half of a warrant at a price of \$0.30 per Unit. Each whole warrant entitles the holder to acquire one common share upon payment of \$0.50 per common share for a period of twelve (12) months. The total maximum Units to be issued will be 1,750,000. The total maximum number of common shares to be issued if all warrants are exercised is 2,625,000 representing 12% of the current common shares issued and outstanding. The warrants will not be registered for trading and all common shares issued directly or through the exercise of warrants will have a four month hold period from the date of closing. The private placement will be a non-brokered private placement, but, agents not related to the corporation, may receive finder fees for up to 6% of the gross proceeds from subscribers introduced by the agent. Multiple closings are permissible.

Proceeds of the private placement will be used for working capital, to hire additional personnel and expand production capacity.

"These funds will allow us to enhance our sales and marketing as well as boost our production capabilities to fill a steadily increasing pipeline of orders," said Scott Riesebosch, President of CRS Electronics, "Businesses and institutions such as Humber College, who recently installed more than 1,000 of our MR 16 LED lights to replace halogens, are recognizing the economic, environmental, and social benefits of switching to LED lighting products."

The Price Reservation Form was filed on September 2, 2009. On September 14, 2009, the Company received conditional acceptance from the TSX Venture Exchange. All of the subscribers will be accredited investors based in Canada or based in the United States.

About CRS

CRS is a leader in the emerging, rapidly-growing market of high efficiency light-emitting-diode (“LED”), or, solid state lighting (“SSL”). The principal activities of CRS include the development, manufacture and sale, primarily in North America, of indoor and outdoor lighting such as LED replacement lamps, LED streetlights, exterior LED warning lights on school buses, child safety systems for school buses and contract manufacturing of LED circuit boards. CRS is a well-established supplier to both the school bus industry and the LED contract manufacturing industry, providing a stable and growing revenue source. CRS plans to be a major supplier of LED light engines for a variety of applications to be developed by CRS on its own and in conjunction with its customers. The Company currently sells one of the very few replacement LED MR16 lights capable of replacing a halogen 50 watt MR16.
